### Summary

Radian Group remains focused on the improvement of its mortgage insurance portfolio to drive long-term earnings growth. Business restructuring intensifies its focus on core business and services with higher-growth potential, ensuring a more predictable and recurring fee-based revenue stream. Based on strong credit characteristics of new loans insured, declining claim payments are benefitting the company. Solid persistency and rise in the new mortgage insurance business are driving insurance in force to increase. Shares of Radian Group has underperformed the industry in a year. Nevertheless, its robust capital position enables it to deploy capital via share repurchases. However, rising expenses due to higher cost of services tend to weigh on margin expansion. Increased provision for losses in mortgage insurance business concerns us.

## Overview

Founded in 1977 and headquartered in Philadelphia, PA, Radian Group Inc. is a credit enhancement company which supports homebuyers, mortgage lenders, loan servicers and investors with a suite of private mortgage insurance and related risk-management products and services. Radian trades on the New York Stock Exchange under the symbol RDN.

The company had two business segments — Mortgage Insurance and Mortgage and Real Estate Services.

- Mortgage Insurance (99% of 2019 net premiums earned)** – This segment provides credit-related insurance coverage, principally through private mortgage insurance and risk management services, to mortgage lending institutions. The company conducts mortgage insurance business primarily through Radian Guaranty, its principal mortgage insurance subsidiary. Mortgage insurance is of immense importance in the U.S. housing finance system as it offers home ownership at affordable rates and pacify risks related to residential mortgage loans. In 2019, net premiums earned in the segment increased 12.7% year over year to \$1.1 billion, mainly attributable to strong volume growth in the mortgage insurance business.

- Services (1%)** – This segment is primarily a fee-for-service business that offers a broad array of mortgage, real estate and title services to market participants across the mortgage and real estate value chain. These services include technology and turn-key solutions, which provide information and other resources used to originate, evaluate, acquire, securitize, service and monitor residential real estate and loans secured by residential real estate. These services are primarily provided to mortgage lenders, financial institutions, investors and government entities. The company extends Services offerings primarily through its subsidiaries, including Clayton, Green River Capital, Radian Settlement Services and Red Bell.

The company made a series of acquisitions to enhance its product offerings. In 2018, it acquired the businesses of EnTitle Direct (in March) and Independent Settlement Services (in November), as well as the assets of Five Bridges (in December), to enhance its product offerings.

---

## Reasons To Buy:

- ▲ **Price Performance** – Shares of Radian Group have underperformed the industry in the past year. Nevertheless, we believe that Improving new mortgage insurance business, declining claim payments and a strong capital position are likely to drive its shares going forward.
- ▲ **Improvement in the quality and size of mortgage insurance in force** – Radian's mortgage insurance portfolio is expected to create a strong foundation for future earnings. In 2019, new mortgage insurance written increased 26% year over year to \$71.3 billion. Based on the performance in 2019 and a decent mortgage origination market, the company expects to write new mortgage insurance business of \$60 billion in 2020. Given the increase in persistency, insurance in force is expected to rise going forward, thereby enhancing the company's strong foundation for future earnings. Moreover, the company remains focused on improving its mortgage insurance portfolio, the main catalyst of long-term earnings growth.
- ▲ **Declining claim payments** – There has been a significant reduction in the company's claims' payments over the last few years. For 2019, net claims paid were \$132.2 million, down 38.8% from the prior-year figure. Given the strong credit characteristics of the new loans insured, we expect the company to see fewer claims than before.
- ▲ **Business restructuring** – Radian Group is restructuring its business by intensifying focus on core business and services with higher-growth potential and ensuring more predictable and recurring fee-based revenues. In 2016, the company entered into a quota share reinsurance program, which focuses solely on single premium business. This initiative will help the company to improve return on required capital, enhance financial flexibility and prudently manage the mortgage insurance business mix. With respect to business opportunities, the company remains committed toward leveraging its core expertise in credit risk management, which will lead to more business written and strengthening of the Mortgage Insurance franchise. On Nov 22, 2017, Radian Group completed its divestiture of its Clayton EuroRisk to intensify its focus on core service. Also, on Jan 22, 2020, the company announced the sale of Clayton Services LLC to Covius Holdings.
- ▲ **Maintaining capital in compliance with regulations** –The company has been able to maintain its capital within the mandated level. As of Dec 31, 2019, Radian Guaranty's risk-to-capital ratio was 13.6:1 compared with 13.9:1 as of Dec 31, 2018. The net increase in Radian Guaranty's Risk-to-capital in 2019 was primarily due to the increase in Risk in force (RIF). For Mortgage Insurance, the metric was 12.3:1 as of Dec 31, 2019, compared with 12.8:1 as of Dec 31, 2018 (both within the RBC requirement of below 25:1) and was in compliance with all applicable Statutory RBC Requirements.
- ▲ **Strengthening Capital Position** – Radian Group took a few initiatives that will consolidate its capital structure by extending debt maturities while enhancing financial flexibility. In April 2019, Pennsylvania Insurance Department approved a \$375 million return on capital from Radian Guaranty to Radian Group to improve its financial flexibility and capital position. In Feb 2020, the board of directors hiked its quarterly dividend to 125 cents per share from its prior dividend payout of 25 cents. Also, the board raised authorization of the current \$200-million buyback program to \$475 million and extended the program till Aug 2021. Such strong capital position reflects financial strength and is likely to drive the company's shares going forward.

Radian is poised for long-term growth on declining delinquency, lower levels of paid claims and an improving risk-based capital ratio, which reflect an improvement in its operating environment.

---

## Reasons To Sell:

- ▼ **Rising expenses to hurt margin expansion** – Over the last few years, Radian Group has been witnessing rising expenses, primarily owing to increase in provision for loss, policy acquisition costs, cost of services, other operating expenses, loss on extinguishment of debt, impairment of goodwill, and amortization & impairment of other intangible assets. In 2019, the company's expenses increased 15.1% from the year-ago period. The insurer should strive to generate a higher revenue growth rate than the rate of increase in expenses. Otherwise, expenses will likely tend to weigh on the operating margin expansion.
- ▼ **Increased Provision for Losses in Mortgage Insurance Business** – The company's provision for losses increased due to the high vulnerability of the mortgage insurance business in the market. The metric rose 25.8% year over year in 2019.
- ▼ **Overvalued** – Looking at the company's valuation, investors might not want to pay any further premiums. Its price-to-sales ratio stands at 2.24, higher than the industry's average of 1.21.

New stricter regulations, increasing mortgage rates pose, below the mark ratings, reduction of annual premium of FHA are some of the headwinds faced by the company over the near term.

## Last Earnings Report

### Radian Group Q4 Earnings & Revenues Beat Estimates

**Radian Group's** fourth-quarter 2019 operating income of 86 cents per share beat the Zacks Consensus Estimate by 13.16%. Moreover, the bottom line improved nearly 23% year over year. Results gained from an increase in premiums earned by the company's Mortgage Insurance segment.

Volume of the flow mortgage insurance business was record high in the quarter, which drove a 23% year-over-year increase.

Quarter Ending **12/2019**

Report Date	<b>Feb 05, 2020</b>
Sales Surprise	<b>NA</b>
EPS Surprise	<b>13.16%</b>
Quarterly EPS	<b>0.86</b>
Annual EPS (TTM)	<b>3.20</b>

### Behind the Headlines

## Zacks Style Scores

The Zacks Style Score is as a complementary indicator to the Zacks rating system, giving investors a way to focus on the highest rated stocks that best fit their own stock picking preferences.

Academic research has proven that stocks with the best Value, Growth and Momentum characteristics outperform the market. The Zacks Style Scores rate stocks on each of these individual styles and assigns a rating of A, B, C, D and F. We also produce the VGM Score (V for Value, G for Growth and M for Momentum), which combines the weighted average of the individual Style Scores into one score. This is perfectly suited for those who want their stocks to have the best scores across the board.

Value Score	A
Growth Score	B
Momentum Score	D
VGM Score	A

As an investor, you want to buy stocks with the highest probability of success. That means buying stocks with a Zacks Recommendation of Outperform, which also has a Style Score of an A or a B.
